

FIRM IN NEW YORK

Stocks Closed Strong and Buoyant Yesterday.

PULLMAN SHOWS A NOVELTY

Attack on General Electric is Repulsed and the Tables Turned—Reports on Products and Grain.

Away with the wash-board
Use Pearlite. As long as you use the old wash-board there'll be hard work and waste. That's what it goes with it, and can't be taken from it. That's what it was made for. It's the rub rub, rub, on it that ruins the clothes. It's the wash-board that wears you out. You don't need it.

Away with wash-day! You don't need that, either. You don't set apart a day for washing the dishes. Wash the clothes in the same way, with no more work, a few at a time.

But you'll have to use Pearlite to do it. Pearlite only can rid you of wash-board and hard work; with it you can do your washing when you like. And you can do it safely, too. Directions on every package.

Bureau of Information, 2d JAMES PYLE, N.Y.

New York, July 21.—Money on call has been easy, ranging from 3 to 6 per cent, last loan at 3 per cent and closing off at 3 per cent.

Potrait rates, \$10,000,000.

Government bonds have been steady. The day opened at the stock exchange with rush to sell General Electric, transactions in which were made simultaneously at prices ranging all the way from 40¢ down to 6¢. The bears followed up this movement with an attack upon Sugar and Chicago Gas, until these stocks suffered a marked decline. The general list held up well, but later everything touched lower figures. The depression in Sugar was based on the demoralization in the market for raw sugar. The stock broke 3½ to 7½ and Chicago Gas 3 to 32½. The final drive of the day was against Lackawanna, which was sold down from 14½ to 13½. The bank failures at the west, the scarcity of time, money and the advance in sterling exchange all operated in favor of those working for lower figures. Late in the afternoon the market resisted the odds more successfully and a recovery of 10 to 12 per cent occurred. Electric, General Electric, Wabash, New England Sugar, Illinois Central, Lake Shore, Manhattan and Rock Island in the lead. Among the specialties Pullman jumped 4½ to 10½ and receded to 10½ to 12½. There was more or less covering of short contracts during the afternoon and some purchases for the long term. The market was again stimulated by the notices given in some cases that stocks would be bought in today in case of failure to deliver. Speculation closed firm in time. Transactions aggregated 260,182 shares, of which 61,556 were utilized.
